Columbus 9 2019-22 is a project financed by the European Commission that enables new EU entrepreneurs to participate in exchanges with experienced entrepreneurs in other European countries.

It is part of the Erasmus for Young Entrepreneur Programme (www.erasmus-entrepreneurs.eu). This aims to develop the skills of new and aspiring entrepreneurs and to bring new skills and experiences to existing small and medium-sized businesses in Europe.

The Columbus 9 2019-22 Consortium partners are participating in the Programme as intermediate organizations. They promote the programme as well as creating and managing successful exchanges. They identify potential participants, assist with applications and provide training and advice on travel and accommodation. They also administer the provision of financial support to new entrepreneurs and ensure full compliance with Programme guidelines and regulations.

The partners of Columbus 9 Consortium have worked together in Erasmus for Young Entrepreneurs Programme for many years and cover 10 countries across Europe: Italy, Spain, France, United Kingdom, Finland, Croatia, Slovenia, Hungary, Portugal and Germany.

In summary, Columbus 9 2019-22 aims to create and support successful exchanges between new and experienced entrepreneurs from all across Europe.
